SYNAPTIC RISK PROFILE 5 | INCEPTION JUNE 2008

INVESTMENT OBJECTIVE

To provide income and long term capital growth.

STRATEGY RISK PROFILE AND SUITABILITY

The portfolio has a multi asset approach and will make use of different asset classes to achieve its objective.

The portfolio is managed with a moderate level of risk. The managers will employ the full range of actively managed Blenheim funds in the construction and running of the portfolio with the necessary risk controls to ensure the portfolio remains in line with its stated risk profile. The portfolio's exposure to equities will be limited to no more than 60% and the balance will be invested in a blend of other asset classes to maintain the moderate risk profile nature of the portfolio.

The portfolio is suitable for investors who are looking for income and longer term (5 years plus) capital growth, and are prepared to accept a moderate level of risk, which is a higher level than Defensive Mixed assets portfolio and with the commensurate higher potential return, but lower than Global Equities.

MANAGEMENT

The portfolio is managed by Beckett Asset Management's team of investment professionals: Samantha Owen, Tony Yousefian and Elliot Basford.

As well as deciding on asset allocation, the team also manages the underlying Blenheim range of funds. These are actively managed utilising a wide investment universe, in line with their investment objectives.

BENCHMARK

ARC Sterling balanced Assets Private Clients Index is a suitable benchmark. This index has a targeted volatility band of 40% - 60% relative to World Equities.

BAM MPS PERFORMANCE FIGURES TAKE INTO ACCOUNT THE ONGOING CHARGES OF THE UNDERLYING HOLDINGS BUT EXCLUDE ADVISER CHARGES AND PLATFORM FEES. INCLUSION OF THESE WILL RESULT IN A LOWER RETURN TO THE END INVESTOR, DEPENDING ON THE CLIENT AGREEMENT AND THE PLATFORM USED. PROSPECTIVE YIELD IS NOT GUARANTEED AND DOES NOT INCLUDE DEDUCTIONS FOR EXPENSES AND TAX. IT IS CALCULATED USING THE HOLDINGS' EXPECTED DISTRIBUTIONS OVER THE NEXT 12 MONTHS (DATA AS AT 29 SEPTEMBER 2023). ANY VARIATION IN THE ACTUAL AMOUNTS PAID WILL IMPACT THE TOTAL YIELD. THIS IMPACT COULD BE POSITIVE OR NEGATIVE.

ARC PCI: ASSET RISK CONSULTANTS (ARC) OPERATE THE PRIVATE CLIENT INDICES (PCI) ACROSS THE RISK SPECTRUM AS PERFORMANCE MEASUREMENT AND YARDSTICKS FOR DISCRETIONARY PORTFOLIO MANAGERS. THIS DATA INCLUDES PLATFORM FEES AND MAY BE ESTIMATED AND SUBJECT TO REVISION.

MANAGER COMMENTARY

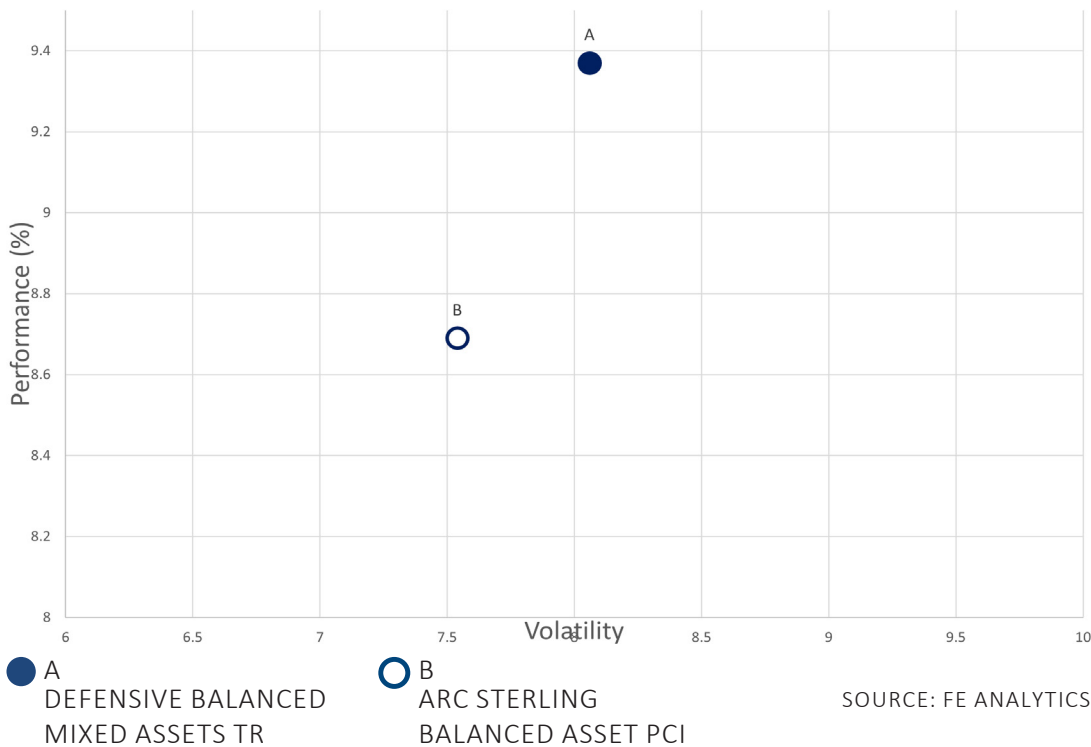

It was a “blink and you miss it” summer weather wise for the UK, and the same can be said for portfolio returns. July started brightly but then it clouded over. Equities, bonds and non-USD currencies struggled, particularly in September, as investors adjusted to the idea of US interest rates staying elevated for longer than was expected. Thoughts of a soft-landing for the economy perhaps look more like a fairytale now. Last October the Fed hinted the pace of hikes would soon slow and it looked like we had seen the peak in bond yields. We had a wobble around March when we saw a series of US regional bank failures and the fire sale of Credit Suisse, but bond yields quickly settled as the Fed stepped in. US Treasury Bond yields then resumed their climb, breaking through their 4.5% ceiling in September. This is key, as it sets the long-term price of money and impacts all other asset prices.

The model delivered a small positive return in the third quarter ahead of the estimated return for the ARC Sterling Balanced peer group. The Overseas Equity Fund was again the strongest contributor, followed by the UK and Fixed Income. The Blenheim Alternatives Fund was a small detractor and Property was flat.

While there were no high-level asset allocation changes this quarter, there is ongoing activity in the underlying Blenheim funds, and you can find more detail in the monthly Blenheim fact sheets.

Last October there was an opportunity to buy but we have seen the returns weren’t durable. The good news is that opportunity is back in almost everything, except maybe US mega cap technology stocks. We still have a fair bit of short dated, cash like, fixed income to deploy when the skies look a little clearer.
