

JUNE 2023

SYNAPTIC RISK PROFILE 5 | INCEPTION DEC. 2015

### INVESTMENT OBJECTIVE

To provide capital growth on a long term basis by exposure to assets considered to be ethical by the managers.

### STRATEGY RISK PROFILE AND SUITABILITY

The portfolio will be fully invested in the Blenheim Ethical opportunities Fund. This is a multi-asset fund, investing in a range of asset classes which are considered by the managers to be ethical investment choices.

The fund is managed with a cautious to a medium risk tolerance. In addition to the typical risks inherent in any investment, the additional ethical overlay does narrow the investment universe when compared to a normal multi-asset portfolio, and may have an adverse impact on the performance. The fund's exposure to equities will vary between a minimum of 20% and a maximum of 60% with the remaining balance invested in other suitable asset classes for diversification purposes. Diversification is further enhanced by investing no less than 70% of the fund in collectives.

### ETHICAL CRITERIA

To be eligible for investment:

- Collective investment schemes must have a stated Environmental social or governance (ESG) objective and policy or a stated socially responsible (SRI) objective and policy.
- Property oriented collective investment schemes must have an independent accreditation for their ESG or SRI credentials.
- Direct investments must align to one or more of the sustainable development goals, as measured by the Investment manager's assessment of the business model.
- The investment manager will check at the point of investment and at least annually that a minimum of 70% of the collectives focusing on shares and Bonds, avoid companies that derive any revenue from any of the following: Human rights abuses, Environmental abuse, Animal testing for cosmetics and armaments.

The portfolio is suitable for investors who are looking for capital growth on a long-term basis (5 years plus), and are prepared to accept a cautious to medium level of risk.

### MANAGEMENT

The portfolio is managed by Beckett Asset Management's team of investment professionals: Samantha Owen, Tony Yousefian and Elliot Basford.

BAM MPS PERFORMANCE FIGURES TAKE INTO ACCOUNT THE ONGOING CHARGES OF THE UNDERLYING HOLDINGS BUT EXCLUDE ADVISER CHARGES AND PLATFORM FEES. INCLUSION OF THESE WILL RESULT IN A LOWER RETURN TO THE END INVESTOR, DEPENDING ON THE CLIENT AGREEMENT AND THE PLATFORM USED. PROSPECTIVE YIELD IS NOT GUARANTEED AND DOES NOT INCLUDE DEDUCTIONS FOR EXPENSES, EQUALISATION, OR TAX. IT IS CALCULATED USING THE HOLDINGS' EXPECTED DISTRIBUTIONS OVER THE NEXT 12 MONTHS (DATA AS AT 30 JUNE 2023). ANY VARIATION IN THE ACTUAL AMOUNTS PAID WILL IMPACT THE TOTAL YIELD. THIS IMPACT COULD BE POSITIVE OR NEGATIVE.

ARC PCI: ASSET RISK CONSULTANTS (ARC) OPERATE THE PRIVATE CLIENT INDICES (PCI) ACROSS THE RISK SPECTRUM AS PERFORMANCE MEASUREMENT AND YARDSTICKS FOR DISCRETIONARY PORTFOLIO MANAGERS. THIS DATA INCLUDES PLATFORM FEES AND MAY BE ESTIMATED AND SUBJECT TO REVISION.

As well as deciding on asset allocation, the team also manages the underlying Blenheim range of funds. These are actively managed utilising a wide investment universe, in line with their investment objectives.

### BENCHMARK

## MANAGER COMMENTARY

The quarter was marked by extreme exuberance around AI related stocks leading to a very narrowly driven US market back into bull market territory, while the CBOE Volatility Index (VIX- an indicator of risk sentiment) plummeted to a two year low in mid-June. The S&P 500 has been driven higher by just seven stocks this year with the other 493 barely positive. Active managers and those with a sustainable mandate are often told by their risk managers that they cannot hold companies at index weights because their portfolios won't be diversified enough or meet the ethical mandate, leading to shorter term underperformance.

The overseas equity portion of the fund was the strongest contributor, helping the strategy produce a small positive return for the quarter overall and outperforming the estimated return for the ARC Sterling Balanced peer group. It was a difficult period though for traditional "lower risk" assets and alternatives as interest rates continued to rise and the Alternatives and Fixed Income exposure detracted from performance.

While there were no high-level asset allocation changes this quarter in the underlying Ethical Opps Fund, we let cash drift up a bit to help protect capital in the short term. You can find more detail on ongoing activity in the monthly Blenheim fact sheet.

So, what lies ahead in the second half of 2023? The global economy is not doing brilliantly but better than expected. Therefore, we think it means higher rates until something breaks, but we keep a watching brief. Is all the bad news in the price? We think most of it is, but we have a fair bit of cash that we can deploy if it isn't.
