SOCIAL IMPACT PORTFOLIO COMMENTARY

Quarter 1 of 2020 was dominated by the Covid-19 pandemic. March saw equity markets suffer steep falls and has been dubbed the “Corona crash”. The thematic nature of the strategy has meant the impact on the portfolio, while painful, was far less severe than the losses seen in the major global equity indices.

We are taking advantage of the significant fall in equity prices to increase the equity exposure up to 46% (from 44%) by deploying some of the cash weighting taking that down from 10% to 8%. This may still seem significant, but the strategy has fewer options to diversify the risky elements of the portfolio because of the responsible investment restrictions.

We are topping up existing portfolio holdings in RLAM Sustainable Leaders and Janus Henderson UK Responsible (1% each) which we believe are well managed to capture returns once we come through this virus.

STRATEGY DESCRIPTION

This strategy is composed of collective investments and is particularly suited to those investors seeking a more Ethical approach to investing. Investors should be prepared to accept a cautious to medium level of investment risk.

There are the typical risks you would experience by investing in any risk asset. However, by having this ethical overlay, the investment universe is narrowed when compared to a standard portfolio and there may be limited ability to take positions in certain regions or asset classes, for example Absolute Return. Although it may not always be the case, investors should note that this restricted universe can have an impact on performance.

INCOME YIELD

The Income yield of this strategy is not targeted and any income received will be reinvested.

STRATEGY BENCHMARK

The performance of the strategy will be measured against the ARC Sterling Balanced Asset PCI over the medium to long term.

This benchmark has a targeted standard volatility band of 40% - 60% relative risk to world equities.

CHARGES ON WRAP

In the region of 0.69% but subject to change depending on the underlying funds and platform. OCF does not include any further transactional costs incurred by the funds held or any performance fee that may be levied by them.
