RISK WARNINGS AND IMPORTANT INFORMATION

Investments in property carry specific risks due to the inherently illiquid nature of this sector. Although the fund provides daily dealing, there may be times when the fund experiences a high level of redemption requests, or the valuation of properties becomes uncertain. In these situations, it is the role of the ACD and depositary to treat investors fairly, which may delay investors being able to make redemptions requests or receiving proceeds from their redemptions.

Past performance is no guarantee of future performance. The value of an investment and the income from it can fall as well as rise and investors may get back less than they invested.

Risk factors should be taken into account and understood, including (but not limited to) currency movements, market risk, liquidity risk, concentration risk, lack of certainty risk, inflation risk, performance risk, local market risk and credit risk.
