

MANAGER COMMENTARY

August was another month with a positive return for the fund, achieving a total return of 1.56%* compared with the IA Sector return of 1.44% over the same period. In a strongly 'risk on' month the 'riskier' asset classes within the fund carried out much of the heavy lifting, whilst the fixed income and alternatives exposure acted as ballast to the investment performance. The overseas equity component of the portfolio was the biggest contributor to performance, specifically the fund's holding in Regnan Global Impact solutions, which achieved over 5% return for the month.

The ever present structural tailwind for Ethical, Green, or ESG aligned investments did not subside in August as the IPCC (Intergovernmental Panel on Climate Change) published their report on the scientific findings of climate change, which highlighted many worrying findings including the following quote taken from the [IPCC's Summary for Policymakers](#): "Many changes due to past and future greenhouse gas emissions are irreversible for centuries to millennia, especially changes in the ocean, ice sheets and global sea level".
