

MANAGER COMMENTARY

July proved to be a very positive month for the fund with an impressive return of 2.43%, outperforming its benchmark by 0.91%.

The fund's diversified assets all added value to the total return, with UK equities having the biggest impact. At holdings level, the best return was achieved by Royal London Sustainable Leaders Fund with a gain of 2.9%. The fund's exposure to listed securities fared very well, with the largest contribution from the Gresham House Energy Storage PLC with a return of 1.17%. There was only one holding with a negative return of just under 0.5% and that was the fund's exposure to the JP Morgan Global Macro Sustainable fund.

Your managers remain comfortable with the performance so far, and are cautiously optimistic about the fund's future prospects.

RISK WARNINGS AND IMPORTANT INFORMATION

Filtering investments for ESG and SRI criteria will reduce the investment universe available. Whilst there is a risk of losing some diversification from a smaller universe, the risk profile of the fund is not expected to be materially affected due to the multi-asset class nature of the strategy and other mitigating factors that are not considered by traditional financial analysis. Past performance is no guarantee of future performance. The value of an investment and the income from it can fall as well as rise and investors may get back less than they invested. Risk factors should be taken into account and understood, including (but not limited to) currency movements, market risk, liquidity risk, concentration risk, lack of certainty risk, inflation risk, performance risk, local market risk and credit risk.
